GARY R. KANYUH

815-260-7737 | gkany@uic.edu | linkedin.com/in/gary-kanyuh | GaryKanyuh.com

EDUCATION

University of Illinois at Urbana-Champaign & University of Illinois at Chicago Expected graduation May 2029

B.S. Mechanical Engineering | GPA: 3.40/4.00

Relevant coursework: Computer Aided Design, Mechanics, Strength of Materials, Differential Equations, Calculus 3, Electricity and Magnetism

CERTIFICATIONS

- OSHA 10-Hour Safety Certification
- Certificate in Basic Construction
- CSWA

ENGINEERING EXPERIENCE

Suspension Lead Engineer, Formula Baja SAE September 2026 - Present

- Lead a team of 11 engineers through weekly planning meetings, assigning tasks and tracking progress on design deliverables
- Coordinate across 7 sub-teams to keep designs, interfaces, and schedules aligned
- Design double wishbone suspension geometry and the upright for the current-generation Baja vehicle
- Simulate loads and axial forces on suspension members to validate designs
- Document every design decision to support team handoffs and future iterations

Structures and Avionics Engineer, Illinois Space Society (Spaceshot) August 2024 - January 2026

- Contributed to structural and avionics design for amateur rocketry systems
- Analyzed prior flight data to guide design improvements across iterations
- Collaborated across sub-teams to integrate structural and electronic components
- Spent most of the time gaining manufacturing skills and understanding packaging of electronics on a high-powered rocket

PROJECTS

Baja Vehicle Suspension

- Designed rear upright model and optimized for maximum strength whilst prioritizing for a lightweight component.
- Documented work thoroughly and collaborated with multiple sub-teams to meet integration requirements
-

SolidWorks 4-Cylinder Engine Assembly Personal

- Modeled a fully constrained engine assembly with 5 moving components
- Produced detailed engineering drawings applying GD&T standards
- Built motion animations simulating piston and crankshaft behavior

TECHNICAL SKILLS

CAD and Design: SolidWorks, Fusion 360, KiCad, GD&T, engineering drawings
Analysis and Programming: ANSYS, MATLAB, Python, Arduino
Hands-on and Field: Welding, power tools, soldering, 3D printing
Professional: Team leadership, project documentation, cross-team communication, safety training

LEADERSHIP AND ACTIVITIES

Volunteer, Chicago Marathon October 2026

- Volunteered with SAE international to raise funding for our club and bond with the team

Co-Captain, Intramural Soccer September 2024 – May 2026

- Organize and lead a team through a season of weekly play
